TROOPS ARE KEEPING THE PEACE IN KNOXVILLE

Fred R. Hall Receives Life Imprisonment

**ONLY ONE BALLOT
TAKEN BY JURORS;
DEFENSE TO SEEK
TO GET NEW TRIAL**

**Most Sensational Case Franklin
County Ever Tried Comes
to End**

**STRESS LAID ON WIRE
MARTHA SENT HALL**

**"Death Will End Game", Tele-
gram is Alleged to Have
Warned**

(International News Service)
RUSSELLVILLE, Aug. 20.—Fred R. Hall, charged with the murder of Miss Martha Henderson here last April, was found guilty this morning of murder and was sentenced to imprisonment for life.

Hall's attorneys immediately gave notice they would file motion for a new trial. The case was given to the jury last night, but no ballots were taken until this morning. Only one ballot was taken. Hall showed no trace of emotion when the verdict was rendered.

Mrs. Hall, who was seated by her husband, wept bitterly. His children who also were in the courtroom, were visibly affected.

Travis Williams, counsel for Hall, in his final argument to the jury, laid stress on a telegram alleged to have been sent to Hall several days before the tragedy, by Miss Henderson. The dispatch read: "I am leaving tonight for Russellville. Arrive there Wednesday. Death will end the game."

Williams endeavored to show that Miss Henderson came here with the intention of killing Hall. Solicitor Henry D. Jones, in his closing argument, asked the death penalty for Hall, declaring that Hall had premeditated the murder and shot Miss Henderson in cold blood without giving her a chance for her life.

The trial was one of the most sensational that Franklin county has experienced in many years.

Tax Revision to Pass House Today

(International News Service)
WASHINGTON, August 20.—The tax revision bill will pass the house this afternoon and be sent to the senate for consideration by that body. Reports have reached house leaders that the senate finance committee proposes substitution next week of the tax bill for the tariff bill and that the tax will be first to be reported to the senate after congress convenes from its recess which is expected to begin next Wednesday.

The senate has proposed that this recess shall last until September 21. House Republican Leader Mondell is working to bring about a recess of the house until October 3 on the ground that it will take the senate some days to get any legislation in shape for action by the house.

Telegrams requesting absent Republican senators to bein their seats Monday were dispatched today by Senator Curtis, of Kansas. It was said that Curtis desires the presence in the senate next week of a Republican majority sufficient to override any unforeseen obstacle that the program for a congressional recess may encounter.

ENGINEER LOCATED

(International News Service)
WASHINGTON, August 20.—Roy C. Keeley, American industrial engineer of New York, who was detained in Soviet Russia, will leave that country within a few days the state department was advised today. Keeley had left Moscow to work in a factory and could not be located when the other Americans left Russia recently. The state department is advised that Russian papers are displaying large notices for Americans to prove their citizenship and secure permission to leave the country.

ARMED MINERS ARE GATHERING

(International News Service)
CHARLESTON, West Va. Aug. 20.—More than 300 armed miners have gathered at Marmed, about four miles from here this afternoon and every hour is adding to the size of the gathering. The announced intention of the miners is to march into Mingo county and take the situation there into their own hands. The distance from Marmed to Mingo is 80 miles. The march is scheduled to begin tomorrow and will pass through Logan county, a non-union field, it is reported.

BATTLESHIP YET MAJOR FIGHTING CRAFT ON SEAS

(International News Service)
WASHINGTON, August 20.—The navy was elated today over the report of the joint army-navy board, which studied the results of the aerial bombing of naval war crafts and held that the battleship is still the major sea fighting weapon.

While highly pleased that the board upheld the convictions of most naval men that the battleship is the main reliance at sea, there is no disposition on the part of naval officials to disparage the power of the airmen.

Naval aviation officers were pleased that the report calls for the fullest possible development of both naval and military aviation and set at work drafting a program for naval aviation for presentation to the general board and to congress.

Army aviation officials hoped that the findings of the report may be somewhat offset by new bombing tests which are to be made on the battleship Alabama, for which the army is now preparing.

TICKETS STILL ON SALE FOR BIG TRIP

Tickets for the excursion to the Tri-Cities August 25 will be sold until Wednesday, W. W. Rahm, president of the Albany chamber of commerce, announced today. The cost of the trip of inspection to the Wilson Dam and nitrate plants has been underwritten by the chamber of commerce and the Kiwanis club.

Citizens desiring to make the trip were urged to make their reservations early as big crowds are going from Huntsville, Hartselle, Cullman and Athens. Hartselle will send a delegation of at least 40 people, Mr. Rahm stated.

Nine Stills Taken In Three Days

(Montgomery Bureau, Albany-Decatur Daily)

MONTGOMERY, Ala., August 20.—State law enforcement agents struck a hard blow at the moonshine liquor business in Alabama during the past three days, according to reports received at the main office today. Nine complete stills were destroyed in raids in Lee, Randolph, Tallapoosa, Clay, Jackson, Russell and Shelby counties. The raids resulted in the destruction of about one thousand gallons of mash, a large quantity of liquor and the arrest of four on charges of operating stills and five on charges of violating the prohibition laws.

Sheriffs of Shelby and Russell counties assisted the officers in the raids in their counties while W. O. Robbins, federal law enforcement officer, was with the party in Clay and Randolph counties.

SPECIAL EXHIBIT OF BUICK CARS

The special exhibit of Buick cars to be held in the lower show rooms of the Malone Coal, Grain & Motor Company, Second Avenue, tonight, promises to be well attended. Much interest in the exhibit has already been manifested and many out of town visitors are expected.

Several models will be shown including the beautiful new Buick Four and music by one of the local orchestras will be enjoyed.

The exhibit will be open from 5 to 9:30 o'clock. All are invited.

The following telegram of appreciation was received today by the Malone company from Buick headquarters in Atlanta: "We note by the Albany-Decatur Daily your invitation to the public to inspect the Buick Four at your sales rooms today. With our new line of fours shown up to the present time in only a small portion of our territory, develops the fact that the demand will be beyond the ability of our factory to supply. We want your public to know how we value your association with our branch and to tell them of our appreciation of the splendid business which you have given Buick in the past and which we know you will, with your splendid service facilities, increase in the future."

MASONIC DISTRICT ENDS CONVENTION; NEXT CONFERENCE GOES TO ATHENS

G. F. Bell Elected Head of Organization in This Section

MEETING ONE OF MOST
SUCCESSFUL YET HELD

Visitors Welcomed by Wiley Stuart and Response by W. R. McCluskey

The second Masonic district, embracing the counties of Limestone and Morgan, yesterday closed a three days session of one of its most successful and profitable conventions, held in the lodge No. 775, Eva, Morgan county. The next conference goes to Athens in February, 1922, and will convene in the Masonic temple there.

The following officers were elected to serve for the next term of twelve months: G. F. Bell, worshipful master, Rising Sun Lodge No. 29, Decatur; J. T. Woodard, Senior warden, Eva lodge No. 776, Eva; Alvis Carter, junior warden, Athens lodge No. 16, Athens; W. R. McCluskey, secretary-treasurer, Rising Sun lodge No. 29, Decatur; Charles E. Sitterson, Senior deacon, Albany lodge No. 491, Albany; A. H. Pence, junior deacon, Somerville lodge No. 721, Somerville; M. M. Barnes, senior sentinel, Austinville lodge No. 679, Austinville; G. L. Thrasher, junior sentinel, Trinity lodge No. 286, Trinity; James Gordon, Tyler, Athens lodge No. 16, Athens.

Thursday afternoon at 2:30 o'clock the doors of the conference were thrown open and the public invited to attend the session. Addresses were delivered by W. R. McCluskey and C. J. Walker.

All of the meals except breakfast were served in a store building convenient to the hall where the conference was held. They were prepared by and served by the women of Eva and the visitors were treated to most delectable menus.

The visitors were welcomed by Wiley Stuart and the response was delivered by W. R. McCluskey.

PLANS OUTLINED FOR POULTRY SHOW

The Tennessee Valley Poultry Association met last night and appointed a committee to solicit advertising for the catalogue to be published by the Association for its annual poultry show to be held this fall. The committee is composed of the following members: Mrs. P. P. Gilchrist, Mrs. D. C. Almon, Mrs. W. E. Smith, J. B. Moyer, A. L. Mitchell.

The committee will call upon all local business men. It was pointed out that no donations will be requested from local people to finance the show.

Training School Comes to an End

Miss Alice Stockton, state Sunday school worker, who has been conducting a training class at the Moulton Heights Baptist church, leaves today for Athens, Route 2, where another class will be conducted. Those who received rewards for work accomplished during the sessions, of the Moulton Heights class include: Mrs. W. L. Davis, E. L. Ashford, Mrs. Dottie Lamon, Ms. Winton, Misses Louise and Savola Lamon, Wilmon Lamon, Miss Mildred Byers, Francis Burt, Etelle Barnes, Elsie Davis, Connie Verner, Rby Bryant, Ruth Bryant.

Sale Of Shells And Arms Prohibited By Order Of Officials

Local Boy Imitates Locklear, Does Stunts on Wings of Speeding Airplane

Capt. Floyd Worley, local boy, for several years one of the best known high divers in carnival circles, has entered into the realm of aeronautics and is after the record held by Locklear.

Captain Worley now is with the Straps Flying School and in addition to his diving act, he is doing stunts on the wings of speeding airplanes. The troupe is playing in Patterson, N. J. this week and is booked for seven more weeks in the territory.

It has long been an ambition of Captain Worley to extend his daredevil act to include stunts with an airplane and his present position fulfills one of his dreams. He now wants to make forget Locklear, the pioneer in the stunt field.

"After I have finished my present contract of seven weeks I am going South and have been offered a ten weeks contract with the U. S. Government to go to Cuba, leaving Key West November 15, but I am not sure whether I will go or not," Captain Worley wrote to a friend here today.

"One of these days I want to my air stunts in a plane over Albany-Decatur." It will be remembered that the diver has tried several times to dive from the Tennessee river bridge but has been stopped by the refusal of permission from authorities.

Among the officers stationed in Montgomery who will return here Sunday night are Maj. George Glenn, Major Harwell C. Davis, Captain Luther Waller, Captain John B. Stratford and Captain Paul B. Fuller. Colonel Hartle A. Moon, commander of the national guard, and staff will leave Camp McClellan when all units have departed, while Major J. M. Dickerson will remain in camp until all affairs of the annual encampment have been settled.

Believing this to be true, the business men of Montgomery, through the Chamber of Commerce, have arranged for a wonderful meeting for the people of Alabama, to be held at Montgomery from September 12 to 23. This will be known as the Alabama Agricultural and Educational Revival and will be a unique convention of earnest men and women, who are interested in the states greatest and most serious problems.

The first week will be conducted along the line of a Short Course school and will be of special interest to all who appreciate the value of Vitalized Education.

All meetings will be held at the City Auditorium and the forward-looking and progressive teachers of the state will be expected to take advantage of this opportunity to come in touch with some of the nation's greatest instructors.

The State Departments of Education, Agriculture and Health, as well as the Alabama Polytechnic Institute are giving their active and enthusiastic co-operation to make this the greatest meeting ever held in Alabama.

The State Department of Education has agreed to exempt all state teachers from attendance of their county institutes if they attend the Short Course in September.

The second week, which is Agricultural week, will be of interest to all persons interested in agriculture. Days will be given over to such subjects as Dairy and Live Stock, Cover Crops, Cloyers and Legumes. There will be an Auburn Alumnus and American Farm Bureau Day, Bankers and Editors Day and a Home Products Day.

SWITCHMAN DIES
(Montgomery Bureau Albany-Decatur Daily.)

MONTGOMERY, Ala., August 20.—C. H. Lindsey, switchman of the Seaboard Air Line railroad, died at a local infirmary Friday from injuries received when he was pinned between two cars in the local railroad yards Thursday. Mr. Lindsey was operated on at a local infirmary late Thursday but the wounds were so serious he died Friday morning. Funeral services will be conducted at the Lindsey old home at Prattville.

Attack of Mob on Knoxville Jail is Frustrated

MANY WOUNDED

Two Companies of Guardsmen Are on Riot Duty

(International News Service)

KNOXVILLE, Tenn., August 20.—Knoxville was quiet today after a riotous attempt last night by an armed mob to lynch Frank Martin, negro, charged with having criminally assaulted a young white school teacher near here.

Twenty or more persons were wounded, two of them so seriously they may die, in a gun battle started when Sheriff's deputies fired over the heads of members of the mob that was trying to storm the Knox city jail.

One of the wounded is a deputy sheriff, the others, two of whom are women, were watching the attempt of the mob to rush the jail.

Two companies of Tennessee national guardsmen are on duty here, one, a machine gun company and the other a cavalry troop.

The fighting started when it was claimed a rock was thrown at an are light which dropped near the officers guarding the jail, which caused the initial fire from riot guns in the hands of deputies. The mob returned this five and the shooting became general immediately.

Witnesses denied the claim of officers that firing was begun by the crowd. Fear is entertained for more serious trouble today and tonight because office workers and plant employees will leave their work early, Saturday being a half holiday.

In an effort to avert further serious controversies, the sale of firearms and ammunition has been prohibited, an order to this effect being issued early this morning.

Guards frustrated three attempts to enter a wholesale hardware store this morning. Though gatherings were comparatively easily dispersed last night more resistance is expected tonight as a wave of indignation and resentment is sweeping the city because of officers firing into the crowd last night.

If the situation grows more serious, additional troops to guard the jail against further attacks will be ordered out it was said.

Adjutant General Philip Brumit, sent here to personally take charge of the troops, has full authority to summon additional companies to the scene. Secretary of State Ernest Hanlon, at Nashville, said this morning.

(International News Service)

BARNSTABLE, Mass., August 20.—Troops, armed with machine guns, who were rushed to the Barnstable jail early this morning as a result of a warning that two truck loads of negroes were about to leave Onset and storm the jail, where three Cape Zerd islands are held charged with attacking Miss Gertrude Butler, were ordered back to Camp Perkins today.

The recalling of the 80 enlisted men and a dozen officers was made when it was found that there was no indication of the rumored attack by the band of negroes. Meanwhile a detail of 15 policemen and a large force of deputy sheriffs, armed with riot guns, are on guard at the jail. The troops will return to the jail again this evening if there is any indication of trouble.

Henry Ford Has Put the Muscle In the Shoals

**HOW SHOULD IT BE SPELLED?
MUSSEL OR MUSCLE?**

WHO CARES? NO ONE, OF COURSE!

THAT Henry Ford, by placing a value on the plants at Mussel or Muscle Shoals, and on the possibilities there and in the Tennessee Valley, has not only made the operation of these plants in the very near future a certainty, but in addition thereto, has made the building of Dam No. 3 imperative and the construction of plants in the Tennessee Valley of every conceivable kind and character inevitable.

That the wheels of the immense plants already constructed and equipped at the Shoals, will soon be whirling either at the command of Henry Ford, some other person or corporation, or the United States Government, no one can deny.

That the building of Dam No. 3 and the consequent development of 600,000 Horse Power and then some, means more than is possible for the imagination of man to conceive, there can be no question.

That cheap power in unlimited quantity will bring into the Tennessee Valley, hundreds of industries, thousands of skilled mechanics and their families, every one must admit.

That this spells something, sure enough, and spells it to the entire satisfaction of every property owner in Albany and Decatur, and will give to them new inspiration and new hope, every one is agreed, and on that spelling no difference of opinion exists.

FOR THESE REASONS, A SCRAMBLE AND A WILD ONE FOR INVESTMENTS IN THE CITIES OF ALBANY AND DECATUR, AND AT NO REMOTE DATE, IS INEVITABLE.

For these reasons it would be impossible to conceive of a better and more favorable time for property owners in Albany and Decatur to increase their holdings, and for those who are not property owners to invest in real estate in these cities, than right now.

We have most desirable residence lots in every part of the city of Albany, we have most desirable acreage property, in tracts from 5 acres and up, in the City of Albany, and we have most desirable business lots and factory sites in Albany and Decatur, which we are yet offering at prices prevailing ten years and more ago.

How long the present prices will prevail, is another question, as we are only human, and human nature is human nature the world over, at least that is what everybody says.

COME TO THE LAND COMPANY OFFICE, OVER THE MORGAN COUNTY NATIONAL BANK BUILDING, AND MAKE YOUR SELECTION AND PURCHASES AT PRICES THAT WILL SPELL SOMETHING TO YOU AS AN INVESTMENT.

THE SCHOOL BOND ISSUE

The citizens of Decatur will have a rare privilege Monday, when they cast their ballots on the proposed issuance of bonds totalling \$100,000 for the improvement of present school facilities and the construction of an additional building. It is not often that a community has the opportunity to make such far reaching strides educationally.

That the new building is imperatively needed to care for the increase in enrollment reflects but the natural and steady growth of the community. That the people feel that the time has arrived when the children and their educational welfare must be of primary consideration indicates a healthy civic viewpoint.

If a chain is no stronger than its weakest link, it would be logical to suppose that a city can be stronger than its educational facilities. When a business concern outgrows its quarters, new and larger quarters are obtained. A reasonable application of the same principle holds good in educational circles. Aside from the fact that the advancement of our educational program, here and in other sections of the state, call for constantly improving our facilities, the citizens of Decatur Monday must choose whether their own individual situation is to be met with a progressive attitude, or whether the demands of the schools shall continue to exceed the limitations of the system.

The Daily is informed that the present buildings are inadequate to care for the enrollment. These are facts more or less familiar to all residents of Decatur. From a purely physical standpoint then the construction of new buildings is necessary or Decatur will be unable to house her children seeking knowledge.

Looking at the matter from a higher moral ground, there are few of us who do not believe that school house construction is the best investment a community may make, collectively or individually.

The education of our youth is more necessary than the conduct of any of our institutions, with the possible exception of our churches. The schools and churches are so closely linked that it is difficult to differentiate between the two. Where there is education, as a rule, there is Christianity. Where there is ignorance, as a rule, there is not the same healthy moral atmosphere.

Who is there who would begrudge our future civic leaders the best educational preparation we can obtain for them? New schools are needed because the present ones are not sufficiently large. New schools are needed because there is nothing else we can do and pay to these youngsters the debt we owe to them. Is it necessary to count costs when these two primary considerations stand forth?

The Daily does not believe it to be the duty of a newspaper to attempt to ram any issue down the throats of its readers. It does believe, however, that the importance of Monday's election is so great that it is unable to neglect this opportunity to urge that every citizen of Decatur cast a vote Monday in favor of the bond issue.

POLICEWOMEN

There are now about 300 cities with women police. In nearly all police departments women were appointed primarily for preventive and protective work and because of pressure by women's organizations. In Washington the commissioners and the chief of police voluntarily established the woman's bureau because of need that grew out of the war emergency and because of their understanding of the different problems of the sexes, but the bureau had a continuous struggle for existence against the forces of evil in the District of Columbia.

The local administration held that no man should be permitted to interview women offenders, especially sex offenders. They also made a survey of this country and Europe to determine the best method of functioning in a police department and decided that a single unit in the police department, made up of women, with a woman as directing head, which may be known by one of several names—woman's bureau, woman's department, protective bureau, etc.—is the right thing, and they selected the name of woman's bureau.

Any prejudice relating to the service of police-woman has resulted from the selection, through political preference of women of ordinary type, with no training or ambition to measure up to the social needs of the police department, their chief aim being to imitate the worst traditions of policemen as closely as possible. The second grand handicap results from assigning women in police departments to a precinct under the control of a captain or detectives who decides the use to which the woman's service shall be directed. Usually he places her in some clerical position and nine times out of ten concludes before he sees the woman

that she is unable to render any service in the police department.

Women have heretofore been more or less victims of ignorant police officers in the various cities. In other words, women's organizations have agitated for policewomen, gotten them assigned to police departments, then forgotten their existence instead of seeing that their services are utilized for the common good.—American City.

A GENEROUS PEOPLE

The people of Athens are a warm-hearted generous community, a fact that was evidenced last week when nearly \$400 was raised in a short while to aid George King in getting back on his feet after his thirteen head of stock were burned to death. B. Denbo and other friends of Mr. King loaned him two or three teams to carry on his transfer business and friends aided in seeing that it was kept up while he was confined to his bed after the fire. With the aid given him by his friends he will be able to get started again in the transfer business and it is hoped that he will soon be back where he was before the fire completely wiped out his business.—Limestone Democrat.

LE MOYNE SUING CITY

Pierre LeMoynes, Birmingham accountant who spent the better part of a year auditing the city books, has filed suit against the city for \$9,235.80, balance alleged to be due him for the audit. LeMoynes was employed by the former city council to audit the books, later he was ordered to discontinue the audit, but he continued the same and filed a report with the city alleging \$40,000 or more was due for unpaid taxes, privilege licenses, etc. S. A. Lynne of Decatur, speaker of the Alabama house of representatives, represents Mr. LeMoynes in his suit.—Limestone Democrat.

French scientists have recently reported an alarming increase in the drug habit in gay Paris. The whiskeyites cannot blame that on the 18th amendment.

The U. S. census report shows that of the 261,553 women farmers, 200,000 of them own their farms. If their brother farmers made such a showing, we could afford another world war at once, as far as money cost would be concerned.

There is a deal of difference between being a man, and a man fighter.

It is said to be scientifically true, that the great saurian lizards of pre-historic times grew such heavy armament protections on their backs that they were crushed and became extinct. Nations and individuals too, who put their all in self protection are headed for the extinction heap. But if defense must be used, let it be neither a lie or a gun.

A TRAIN OF THOUGHTS FOR SABBATH AND OTHER DAYS

By J. E. Blair

Some supporters of candidates for civil office, wise politicians will tell you, should not always and in all places be "out and out" for their man. It would hurt a candidate for some people to be openly for him. This is true for two reasons, first, many voters judge a man entirely by his friends, and second no candidate is strong enough to carry "dead timber."

In religious affairs, just the opposite rule must be followed. You must be out and out for your friends, especially must you be "out and out" for the Friend of Friends,—the Lord of Lords! The transformation of every disciple of Christ, has come only as such disciple has been out and out for the great Teacher. If you have taken such an attitude you are absolutely sure to attain to spiritual life and a Christian understanding of all truth. Christianity is personal loyalty to Christ. It is nothing more and nothing less. The first followers of Christ, as their later conceptions of His kingdom prove, knew next to nothing about the significance of His messiahship. But they were "fit," they were suitable messengers, they could carry His banner and they were able to drink of His cup. They simply "accepted" Christ—they liked His fairness and boldness—in a word He appealed to them.

Today, those who are really disciples of Christ, follow Him for like reasons. They do not stop to quibble about non-essentials, they do not even understand all they hear about Calvary, justification, sanctification, adoption and much less, the many "isms" concerning religion belief.

His followers are just "out and out" for Christ, and are determined to see Him win, both in their own lives and in the whole life of the world. True disciples of Christ, know that He is greater than any religion or system of thought, He has founded. He is a cause greater than any effect. Mohammedanism is greater than Mohamet; Buddhism is greater than Buddha; Judaism is greater than Moses; but Christianity is not as great as Christ! All the developments following Christ's teachings have been impotent to add anything to Him. All the creeds and all the great sentiments ever spoken do not approach the sermon on the Mount! Never man spoke as He did, albeit history shows where a "great" English writer, Edmund Burke, and such orators, were greater speakers than was the preacher of the Sermon on the Mount! Christ is without a peer. Will you accept Him? There is only one secret you must believe concerning Him: He is able to transmit His power to you. He will be a well of water within you, springing up unto everlasting life.

HURT ALL OVER

Texas Lady Couldn't Sit, Stand or Lie With Any Comfort. Says "Cardui Did World of Good."

Bartlett, Texas.—Mrs. Nannie Messer, of Route 3, this place, states: "About three years ago I was in a very critical condition. I had been suffering for some time. To tell how I hurt would be impossible."

"I just hurt all over. I couldn't sit, stand or lay with any comfort, my back, sides and head all gave me a great deal of trouble."

"I was especially bothered with a light swimming in my head. My people were very uneasy about me and sent me to my relatives to see if a change would do me any good."

"I stopped at a sister-in-law's and she being a great believer in Cardui, asked me why I didn't use it. I decided to try it."

"I had only taken a few doses when I felt it would do me good. This gave hopes and I used it right along and it did me just a world of good, since which time I have never ceased to praise Cardui."

Cardui is for simple female complaints and womanly pains and has been found to benefit in thousands of such cases when not due to malformation or that do not require surgical treatment. Try it. NC-136a

If the slogan "1921 will reward fighters," is true, there is a couple in our neighborhood that are in a fair way to become millionaires.

There has been a lot said about Hon. Andy Volstead, pro and con, mostly con—but seriously now, what is your honest opinion of a man who would obliterate beer and chew plug tobacco?

Peter Tumbledown has a bigger crop of weeds this year than ever before. Some of them are so high they make a good shade for Peter as he sits and cusses the government and things generally. Peter has found that it is much easier to complain in the shade than in the sun.

Our idea of the top notch of inconsistency is the sweltering guy who sits on a cake of ice trying to make himself think he's taking a sleigh-ride.

A feminine voice called up The Daily office Saturday and asked for the Office Cat. We unhooked the receiver. The following conversation took place:

"Is this the Office Cat?"

"Yup."

"Have you red hair?"

Scenting a mouse, we parried, "No what did Hare write?"

"Don't get fresh"—she was reasonable, like any woman—"do you know why your hair isn't red?"

"Nope."

"Cause ivory doesn't rust."

AMBITION

Every Mother dreams that her boy may some day be president—but the boy would rather be a motorcycle

cop.

The best kind of pride is the pride a man takes in his own work.

More farmers die from being retired than from being tired.

Little Bessie, aged five, after calling her mother several times during the night and receiving no answer, said: "Mother, are you really asleep or are you just pretending you're a telephone girl?"

There seems to be nothing small about the governor of Illinois but his name.

Once we knew a girl who was not beautiful by any way of reckoning. Most girls have a feature or two to recommend them—the eyes of the hair or the finger or the complexion—but this girl was a total-loss an all counts—until she smiled. When she smiled, ah, then—Then she was awful.

**Relief Agreement
With Reds Signed**

(International News Service)
RIGA, August 20.—The agreement for American relief in Russia was signed at 11:15 o'clock this morning by Walter Lyman Brown, representative of the American relief administration and Maxim Lytznoff for the Russian soviet government.
Signing of the agreement has no political effect upon the relations between Russia and the United States, it was announced today. The American government plays no part in the Riga agreement, it was said.

TWINS GET REVENGE BY BLANKING MULES AS RUSSELL HURLS IN SPLENDID FORM

Three of Locals Four Hits Bunched in the First Inning

LOCALS PLAY WITHOUT ERROR BEHIND RUSSELL
Joe Eaks Handles Six Chances Without Bobble at Shortstop

The Twins, playing errorless ball behind Russell's excellent pitching, revented themselves upon the Mules in Columbia yesterday, winning 3 to 0. All of the runs were made in the first inning when a walk and an error aided in the scoring.

After the first Gossett settled down and pitched a splendid game, holding the Twins to a total of four hits. The Mules obtained seven safeties off Russell, but he was unblatant in the pinches and retired five of the Mules via the strike out route. Joe Eaks, subbing a short for the Twins, handled six chances without an error while Lauderman, at third, handled seven without a bobble.

The form in which both twirlers were working is indicated by the fact that there was not an extra-base hit during the entire engagement. Neither was there a hitler able to obtain more than one blow, with the exception of Gossett. He got two.

The Twins got three of their four hits in the first, Gossett holding them to one blow after the initial inning.

New York Letter
by Lucy Jeanne Price

NEW YORK, August 20.—Italy is going to add something of her own particular culture to 33 young Americans of Italian descent who have already made their mark in the educational centers of this country. The group sailed from New York the other day on an Italian steamship, guests were selected "because of the high standing, they have achieved in high schools, colleges and universities of this country, and while they are in Italy they will visit museums, are galleries, churches and palace, and have an opportunity to study and appreciate the art of their own land. They can all read and write Italian fluently. They are bearing with them a bronze wreath to be placed on the tomb of Dante in honor of the anniversary celebration. In spite of their keen interest in seeing the land of their fathers, they didn't want any misunderstanding about their own nationality. "Maybe you won't come back?" said one reporter, as they were going aboard. An almost scared look came over several faces at such a possibility. "Oh! We are Americans. We return to our country," they insisted.

There are 100,000 persons from the South, the West and from Europe spending their summer vacations in New York City, according to estimates made by the leading hotels here. There seems an almost complete reversal of the before-the-war situation when Europe was the playground for Americans. The "See America" campaign evidently has reached Europeans as well as those of our own continent.

Another "Follies" is scheduled for New York production in October.

Classed as an amateur performance it is never-the-less ready to challenge comparison with all the other "Follies," "Frolics," "Frivolities" and whatever other names there be. This is the "Vassar Follies", to be put on by the New York City girls of the class of '15, under the chairmanship of Miss Elizabeth Johnson, with cast and chorus assistance from the most talented singers and dancers of other years. The "Follies" will be sent in manuscript from to Vassar clubs throughout the country to be given for the sake of bringing in more dollars to the Endowment Fund. A complete dramatic department is organized at the Endowment C committee headquarters, under the direction of Miss Sybil Fletcher, and in addition to the "Follies", several dramas, comedies and tragedies, written by Vassar graduates, will be sent out with complete directions for production, costume-making and scenery. Miss Fletcher has herself made models for the greater part of the scenery which are at the command of the alumnae.

After having supplied more than 1,000 peg legs, largely of her own design, to wounded soldiers during the war, Lady Marjorie Dalrymple, sister of the Earl of Stair, has come to New York to go into the business of manufacturing suede articles. It was finding how nice and soft it was for the tops of the leggings, that decided Lady Marjorie upon that particular medium for a business career, she says.

James Moore, Hobo, A-1-1, is with in the city for a few days. James is a pink cheeked, yellow-haired young fellow, who has covered every state in the United States, visited every state capital, and nearly every national park, and carved his signature, "J. M. A-1-1," on every registered water tank of hobodom, since he left Chicago, August 4 of last year. It has taken pretty steady traveling, but James is nothing if not thorough. He has been in fourteen countries of Europe, too, and his initials adorn the top of the Eiffel Tower. There is distinction in hobodom as well as in any other fields of life.

COTTON MARKET GAINS STEADILY

(International News Service)
NEW YORK, Aug. 20.—A little week end covering with moderate buying by the trade caused opening gains of 2 to 6 points in the cotton market this morning. By the end of the first quarter of an hour prices were 7 to 8 points net higher. Continued hot and dry weather in the southwest prevented bearish operations.

TABERNACLE

Sabbath school, Saturday, at 9:30 a. m.

"The Millennium" will be the subject at preaching service, Sunday night, 8 o'clock. When is the Millennium, before or after the second coming of Christ? Is the millennium to be a thousand years in which the world will be converted, or is it to be the time of a temporal reign of Christ on earth, or neither? This subject is an interesting one, and you are extended a cordial invitation to attend. This will be the last service in the Tabernacle until after the Seventh-day Adventist Camp-meeting at Clanton, Alabama, from Sept. 1-11. Come next Sunday night, at 8 p. m.

Election Monday, August 22nd**To the Voters of Decatur:**

This Board of Education unanimously and unqualifiedly endorses the bond issue and three-mill school tax to be voted on Monday, August 22.

We appeal for ratification of these measures. The bad housing conditions of our schools make it necessary.

More than 200 children were crowded in an old residence on Oak street, which is wholly unfit for a school building and is a disgrace to the city. These were your children and our children! Moreover, repairs are needed in the other buildings—particularly, the Colored school building.

We have carefully canvassed the situation, and nothing short of one hundred thousand dollars, the amount of the bond issue, will meet the requirements. The tax will more than take care of the interest on the bonds.

It happens that Huntsville votes on the three-mill school tax the same day, Monday, August 22.

During the past six years Florence has voted about 300,000 dollars of bonds for school buildings.

Athens has numerous schools and splendid buildings for them. Hartselle and Cullman have better school buildings than Decatur at the present time.

Shall we let neighboring cities all around us pass us in the race? We have the best railroad facilities of all the cities in the Tennessee Valley and the poorest school buildings. We must keep up with the procession. Vote for the bonds! Vote for the tax!

The tax will yield sufficient income to pay the interest on the bonds and provide a sinking fund and will thereby make possible ready sale of the bonds to good advantage. The tax is necessary.

The expenditure of school funds is vested by law exclusively in this board, and we pledge our utmost effort and care in expending the people's money in the erection and improvement of the buildings, and will give a full and public accounting of the business.

The tax would not fall heavily on any individual. Property worth \$1,000, even if assessed at the full sixty per cent, would be taxed only \$1.80.

Stand by the boys and girls! Vote for the tax! Vote the bonds!
